I ook out for the sleek tongued varments that tell you the Advance is not the best machine in the market. Those that tell you falsehoods are not wording of the ADVANCE is guaranteed to do more and better work than any other machines in the market, and is the only machine on the Coast that has NEVER been replaced by other machines for an ADVANCE that has been run two years, and have given parties to understand they would give differences, but were told that the ADVANCE, after two years' run was still much better than old fogy machines if they were new. And if the ADVANCE engine is not the best truction engine why is it that I have sold TWELVE on the West Side, between Port land and Corvalias, this year?

This morning a frame structure containing 1000 gallons of keroseus, in the rear of a large ware house, was set ifre by an incendiary, and but for prompt action by the fire department, the city would have been in great perfit as the block is composed of frame structures in the heart of the city. A vigilature committee was creanized this morning composed of leading business and professional men. The members will partial the streets at night inocquito and any one applying the torch will be summarily dealt with on the spot

THEFO OF THE MORMONS.

The Canadians are already getting tired or the polygamous Mormon colony founded near Port MacLeod. The newspapers of Alberta are urging the government to sell them no more lands. The people soon learned the inwardnes of what pur ports to be a religion and the papers say that Mormonism is actularly, pure and unadulterated, both in theory and in practice and that there is no more religion in its devotces than among the North American Indiana who from time immemorial have practiced the same thing without any pretenue to taking religious

WOMAN SUFFRAGE.

Arguments for and Against Heard by the Committee on Elections.

OLVENTA, W. T., July 16.—A large number of ladies and others were present this evening in the capitol, to hear arguments made before the committee on elections in the matter of woman suffrage.

Judge Bush, of Seattle argued the matter in a lengthy review treating the question as a matter of law more than a more privilege.

J. R. Thomps m., of Vancouver, by permission made a few brief rumarks, giving authorities as to the beneficial result arising from woman suffrage wherever adopted.

the beneficial result arising from woman frings wherever adopted

Mrs. N. S. Forter also addressed the committee, and was followed by Miss Bessie I accs, of Wells Walls, who displayed a vast smount of information on the subject of woman's rights. Her arguments are sale and to the point. In an awer to the many questions put to her by the committee she exhibited a great deal of tact and ingruntly, which could not fall in making an impression on her heavers, although from appearances, the committee will probably report in favor of a separate artuel, to be submitted to the popular voic.

As the hour was getting late the committee adjourned to rectargation Thursday twilling which other speakers will be heard.

While sensible citizens of Tacoma are as fur from doing this as others, the town has a newspaper or two devoted to this sort of fustian and larguoquence and the extract we have given above is a specimen of what appears m their columns every day for the credit of Tacoma and for the credit of there ought to be general excla judged by its newspapers the town should ash its newspapers to be sensible. truthful discreet The boom style" is a style which when quarteted always has three parts bombast, and it may be de even a small moiety of the remain

VALIDITY OF THE PILOT LAW When it was proposed during the recent session of the legislature to pass an act to re duce pilot fees on the Columbia river bar and

Columbia and Willamette rivers er opposition was made by a number of pi was challenged and an effort was through proceedings in court to set it shifte The grounds on which these proceedings were based are stated fully in Judge Deady s nion rendered yesterday He has exam ined very carefully the objections to the act r bis treatment they appear to be altogether firmsy and sophistical. The case rested mately on the averment that the subject of the act of 1889—the present pilot act was not expressed in the life as required by the constitution of the state. But Julge Deady's analysis shows that the sulject of the act was in ...et set for them the t to with officance and clearance that left no room

In 1885 the state authorized a compilation of its statutes which compilation known commonly as Hill's code" was published in 1887 prefaced by the certificate of the gov-ernor as provided by law. For the purposes of this case objection was made that refer e to this compliation in an act to arrend the laws, was mentionent. Judge Deady sets forth the undoubted fact that it was competent for the leg sinture to authorize this com pitation of the laws and to provide that the same should be evidence as to what the gen eral statutes of the state are, and reference thereto, by title, chapter and section is suffi clent both in legislative and judicial prosedings
It is not probable that there will be any

further endeavor to contest or obstruct the new pilot law. The law makes reductions necessary to the preservation of the commerce of the Columbin river, and it was the intent of the legislature in emoting it that it should be the means of carrying out reforms which experience had shown to be indis

NOISLE AND NERVES.

If this is an age of any special thing besides noise, 1613 pre-eminently an age of nerves. The extent to which the one plays upon the other to the wreck of the latter is frequently attested by the sbrinking victims of nervous disorders who beg plaintively for quiet in which alone they can rest and sleep. The an every physician syssiting list upon the register of every health resort hotel upon the records of every insane asylum The American Analyst declares that the

nerves can never get so necustomed to dis contant noises as to become oblivous to them. Among the noises which grate upon the tertured nerves of the victims of insomma that abound in every city are the scream of steam whistles, the clash of wheels over rangh paraments, the ratite of loads loosely puted, the rumble of street cars the clonger of bells and the calting of bucksters. Most of these noises are the heritage of habit rather than the result of necessity, and com-bined they create a condition in which a healthful nervous system of natural strength and sensitiveness is impossible Most of the great cities of the world, taking

alarm from the general disconfort which these noises inflict have suppressed more or less completely one or more of them. Thus in Berlin heavy wagons are not allowed to pass up certain streets In Paris any load of rolling material must be securely lashed until it cannot make a discordant noise Munich allows no belis on street cars. In Philadel phia church hells have been held a nuisance ha certain localities by judicial ruling and eteam whistles are forbidden in most of the large cities of the country It is held that any noise made for the

purpose of calling the attention of the interested public to the time of day as for the departure of a steamboat, that leaves her wharf at a duy advertised time or the whistle of factories or mills, that have cer wansae of theorets or mins, that nave cer tain hours for beginning labor year in and year out, is wholly unnecessary in this age of cheap and reliable time places. The tendency is to run the demand for the abutement of accustomed noises into an

extreme, but it is doubtless true that most discordant noises are of an unnece sary type, which a by little care and good natured illeposition to favor the shrinking tortured and wrecked nerves of the human race could readily be silenced

On February 25, 1885, an act was passed entitled 'As act to provide for collecting, compiling and listributing the laws of Oregon, with canotations." Ses. L. p. 142. This act anthorized the secretary to purchase 1000 copies of such conspilation when prepared; the same to be first "submitted to the governor for examination," and to be by him certified "to contain all the goneral statutes in Oregon in force.

On February 18, 1889, in this state of the law on its subject of pilotage; an act was passed, entitled "an act to smead tittle i of chapter 65 of this annotated laws of Oregon, relating to pilotage, at the Columbia river bat and on the Columbia and Walhamet civers.

By this act, sundry sections of this title were muched 60 as to red as therein set forth, mong these is 1918, which appears from the subject matter and the inarginal note thereto, to a scollon 28 of the original act of 1882, as finally mended by \$2 of the act of 1887.

The enactment of this section in the amondary and is in this form:

The canactment of this section in the amonda-ory act is in this form:
"Section 7.—That section 2018 of 1001's Anno-ated Laws of Oregon be, and the same is hereby, mended so as to read as follows:

Admitting this, the libeliant contends that this act is invalid, because passed in contravention of \$20 and 20 of article 4 of the constitution. It is also admitted that if the contention of the libeliant, in this respect, is right, he is entitled to demand and receive the compensation provided in \$200 for the Compilation of 1867 or \$2 of the act of 1867.

of the case.

The act of 1885 contemplates that the general forms of 1885 contemplates that the general factor of 1885 contemplates that the general factor of the such will be "collected, compiled and the outside will last fill;" and the continuous of the governor, prelixed to what purports to be such compiled into states that it was compiled and gunotated by William Latt Hill;" who is assumed to be the same person as "W. Lalt Hilli."

Section 4 of the act of 1885, designates the work as a "compilation," and deplants that when certified by the governor, as required by the act, "it shall be in force and shall be received in all courts of the State as an authorized compilation of the state as an authorized compilation of the state as an authorized compilation of

But it was competent for the lagislature to authorize this complation of the laws otherwise "in force," and to provide that the volumes in which it should be published, and the designation of the laws therein by charles, titles and sections, with the corresponding sections of the original acts in the margin, should therefore be evidence of west are the general statutes of Oregon and how they are divided and enumerated in chapter, titles and sections. For instance, the legislature may resolve the 42 of the fact of February 21, 182, prescribing the compensation of the Colombia bur pilots, may hereafter be dited and knows as § 338 of a compliation of, the general laws of Oregon. with ressonance certainty can be accessed.

The most proper and natural designation of the publication is that used in the act authorizing it—compliation. The work is not a "code," although it contains the codes of Oregan, as we as the miscellaneous laws, "arranged under appropriate heads and titles in the order and method, of

a rode." The symptotion is a collateral and subspirituals part of the work; and the phrase, "analysised laws" in a no means an accurate or definite designation of the publication. The complication of complete size of the work, which in an analysis of the work, which in the complete size of the work, which in the complete size of the work, which in the complete of the size of the work, which is complete the size of the work, which is the complete of the size of the work of the complete of the size of individuals, and for greater certainty, the name of the complete.

and for greater certainty, the name of the compiler.

The was said, on the argument of the exception, that the work does not contain "all the general staintes of Oregon," and a particular omission was mentioned. It did not, however, relate to the subject of pilotage. Hesides, the cortificate of the governor is prima facile evidence of the fact that it does contain all the statutes of a general nature, in force at the drue of the certificate of the say "prima facile," or certainty coriginal roll, that there is an error in the completion of the roll, that there is an error in the completion of the continuous or commission or politation, either of omission or commission or solution of the roll, the content of the secretary of state against that of the State against that of the

amended.

My conclusion on this point is, that the compli-ation of August 9, 1887, is an authentic publica-tion of August 9, 1887, is an authentic publica-tion of the general statutes of Oregon, then in force, that it may, for both judicial and legislative purposes, be properly cited or referred to by the designation of chapter, title and section, as there-in arranged and set down, and that the legislature intended to and did refer to § 3918 of said compli-ation, in the passage of said act of 1889, at § 7 thereof, for the purpose of amending the same us therein sot forth.

On the second point but little need be said. The

thereon, for the purpose of minimaling the same as therein so t forth.

On the second point but little need be said. The set of 1889 is not, in my judgment, a revision of the set of 1885 and and published in title 1 of chapter 66, of the compiled and published in title 1 of chapter 66, of the compileation of 1887. The purpose of the former act and the effect of it, is, to amend certain, sections of the latter or the compilation intered, each section so amended being the subject of a separatic enactment, and set forth in the amendatory act and published therein, at full length. un length.
What is a revision of an act as distinguished
rom an amendment thereof, within the purview

the subject of a separatio ensemble, and set out in the amendatory act and published therein, at full length.

What is a revision of an act as distinguished from an amendmont thereof, within the purview of the constitution, which makes it necessary to set forth at full length it the amendatory sot, the act as revised, it is not decessary now to decide. No authority was for the constitution of the point. My impression is, that as long paint has a mondatory act, that as long as a mondatory act, that as long and it is sufficient to set forth and publish in the amendatory act, only the sections actually immended, and as amended. In this case an act or title containing 101 sections was amended by changing only ten of them and repealing two. Neither is this an amendment by a "more reference" to the title of the act amended. On the contrary, each section amended is referred to by its number in the complication, and "set forth and published at full length" in the amendatory act, as amended. The colam, once made, that it is necessary to set forth and publish at full length, in the amendatory act, as mended. Portland v. Stock, 2 Gr., 69; Feople v. Pritolard, 21 Mich., 24th the libellant lingth, in the amendation of the first polaric of the act is not expressed in that the batch of the act is appears therefrom that the object of the act is reasoned that it does not appear therefrom what is the "subject" of auch title 1.

The purpose of the constitution in requiring the "subject" of auch title 1.

The purpose of the constitution in requiring the "subject" of auch title 1.

The purpose of the constitution in requiring the "subject" of the act is "to amend title 1 of chapter 65 of Hill's annotated Laws of Oregon," and it does not appear therefrom what is the "subject" of the act is not expressed in the citle thereof is apparent, and has often been stated by courts and judges with great unanimity. Brefer, it is to give notice to the members of the length and to preven the entertent of the section is not complied with the subj

The "subject" must be expressed, stated, set forth in the title. It is not sufficient if it, the subject, may be found clawhere, as in the section to be amended, from what is said or suggested in the title of the amendatory set.

amend an act omitted. A water to revolde for pilote age on the Combible of Walkamet rivers, "does can be combible thereof in the title. Such is the rest of the amendatory act of February 18, 1848. Ses. L. p. 38. An act purporting by its title to be an act to amend another act relating to pilotage, as much so as if it had been expressed in so many words.

But if the law is otherwise on this point, and it is not enough that the subject of the act to be an amendatory act, the words in the title of the amendatory act, the words in the title of the amendatory act, the words in the title of the amendatory act, the words in the title of the samendatory act, the words in the title of the samendatory act, the words in the title of the samendatory act, the words in the title of the samendatory act, the words in the title of the samendatory act, the words in the title of the samendatory act, the words in the title of the samendatory act, the words in the title of the samendatory act, the words and the Columbia and Walkamet rivers. This is certainly a good this words with the left he words will the samendatory one. It is sufficient if the "subject" thereof—the person or thing on or concerning which it is intended to operate—is expressed therein. If it is intended thereby to amend some prior act on that subject, that must be done by proper and apt words and references in the body of the act, as prescribed in the constitution.

My conclusion is, that this act was passed in conformity with the fundamental law, and is therefore valid. This being so, the libellant is not entitled to recover anything beyond the sum already paid to him for his services as pilot on the flores when the substant.

THE POPE'S TEMPORAL POWER. Re Thanks the Prople of Quebec for Their Sympathy.

Montekat, July 16.—Pope Leo XIII. has sent an autograph letter to the authorities of the Lovel University, thanking them and the citizens of Quebec for the resolutions adopted by them and for the demonstration of April 28th last, in favor of the restoration of the temporal power of the pope. His holiness congratulates them, not only on their prudence, but on the sagacity of their action. He says it is evident that they well understand how the impunity enjoyed by the enemies of the church is a source of improprieties in human society and troubles to the state. to the state.

Counsel for the other members of parliament against whom charges were made by the Times then also withdrew from the case, Parnell made a personal application to the court, asking if there was any desire for his further examination, and if so to proceed without further delay. Justice Hannen promised to hear him Thursday.

After counsel for Parnell and other members of parliament had retired, Justice Hannen said that the scope of the inquiry would not be altered. The taking of testimony was then resumed.

The taking of testimony was then resumed of the Irish Republican Brotherhood from 1886 to 1870. In 1871 an attempt to arrest him was made when he was toaving Ireland under the name of John Smith. Letters were found in his luggage from the agent who was shipping arms to Ireland. Sir Henry James, counsel for the Times, produced several letters written by O'Kelly, partly in invisible lok, in which reference was made to the shipment of arms and the doings of Fenians. One of the tetters, referring to a remittance of \$21,500 from America, contained the passage: "We are ready to take the field when the proper order is issued."

Witness admitted that the letters were not authently. While witness was in America he joined the Clan-na-Guel. This organization sent him to Ireland as a military officer to reorganize the mon. He received \$9000 toward his expenses. He did not effect the object of his mission, fluding that the agents in Ireland declined to co-operate with him. He therefore considered the mission ended and went to France. He sent his resignation to America and returned \$9000. During his career in parliament he received no money from America.

This suit is brought by the libeliant, T. F. Nell, against the ship Borrowdale, to recover a balance of \$92.66, alleged to be due the libeliant for pilotace.

It is alleged in the libel, that on May 80, 1839, the libeliant was a duly licensed pilot for the Columbia river bar, and that on that day he took charge, as such pilot, of the Borrowdale, and brought her in over the bar to her anchorage, at Astoria; that the Borrowdale then drew 20 feet of water and her registered tonnage was 1197 tons; and that for said service the libeliant is entitled to demand and receive like sum of \$175, of which sum only \$33 94 has been paid, leaving a balance due the libeliant of \$20.00.

The master and cismant, George contribute.

ve therefor. Is in the mature of a democrac to the la axception is in the question, whether the if compensation which the libellant is out to receive is that fixed by the law as it stood to February 18, 1888—38 per foot for the first refet of drangist of the vessel, and 310 per for each additional foot, or that prescribed by not of that date (Bet. I., p. 11)—38 per foot and two cents a ton for each ton over 1000 registered measurement.

nd two cants a ton for each ton over 1000 spiratered measurement. the better understanding of this question it a well to premise, that on October 20, 1832, was passed, entitled "An act to provide for go on the Coltimbia; and Wallamet rivers." for this set the compensation for bar pilotas fixed at \$6 a foot for the first twelve feet and at \$6 for each additional foot. February 18, 1825, an act was passed, early a compensation of the pilota and act and act and the compensation of bar pilots \$3 a w the first twelve feet draft and \$10 for each and to the compensation of bar pilots \$3 a w the first twelve feet draft and \$10 for each onal foot. wolume, and the other general similars in the second one. Section 4 of the act provides—"From and offer the time when the said compilation shall be examined a described by the governor, as hereinbefore provided, it shall be in force, and shall be received in all courts of this state, as an authorized compilation of the Statutes of Oregon." On August 9, 1887, the Governor prefixed his certificate to a "compilation of the Statutes of Oregon," published in two volumes, made by "William Lair Hill," copies of which appear to have been purchased and distributed by the Acreaty in pursuance of said and of Sebruary 25, 1885, and properly known, as the "Compilation of 1885".

in value of the compliation of left or vertical fields on which the validity of the act is impugued are these:

(1) The "subject" of the act is not expressed in the title thereof, as required by \$20 of article 4 of the constitution, which declares. "Every act shall embrace but one subject. " which subject shall be expressed in the title."

(2) The act or title sought to be smeanded is not set forth and published at full length, as required by \$22 of said article, which declares. "No act shall even be revised or amended, by mere reference to its title, but the net revised or section amended shall be set forth and published at full length."

length."

(3) The reference in the act to "acction 5918 of Hills Annotated Laws of Orogon" is "menning-less," as there are no such "laws" anown to the law of Oregon.

It would have been proper and convenient if the act of 186 had declared by what name the compti-

courts of the State as an action of the state of Gregon. It is not admitted that the legislature could by any such means make a tar, and therefore the words—"shall be in force"—may be rejected as

MR. MOODY'S SCHOOL.

A Letter From Rev. L. D. Driver Describing the

NORTHEIRD, Mags., July 9.
TO THE EDITOR OF THE ORROSLAN.
TO understand Mr. Moody's work here, either in its nature or magnitude, it must be seen. For the accommodation of his school twenty large buildings have been erected, each bearing the name of some wealthy man whose benevolent heart has opened his hand to give the sapiring poor boys and girls of the granite hills a chance in the struggles and condicts of human life. Of these twenty large buildings, four sen are built of brick or stone, and are undelst of architectural beauty. A distance of three miles separates the boys' school, on Mount Hermon, from the girls' school, in Northfold, separated by the Connecticut rivers. NORTHFIELD, Mass., July 9. m 500 to 600 students attend these schools

Nine months in the year Mr. Moody is engaged in evangelical work, and three months here. During the latter period one Christian convocation rapidly succeeds another, each insting from ten to lifteen days. The present are for college students fresh from their vacation and are here for biblical instruction. Four hundred and fifty are now here, representing 19 American and six European colleges. Of Europe Cambridge. England, has 1: Oxfort, England, 3; Dublid, Ireland; 8; Edithorough, Ecolland, 4; Glusgow, Scotland, 2, Aberdeen, 1.

Americon, Section, Consequence Saluriar evening, June 29, and will close July 10. The convention opened with three biblical lectures—one Saturday evening and two on Sabath—by the writer, which were published in full in the Springleid Caion; 500 copies of each were taken by Mr. Moody and distributed to the students, to be circulated and applicable by them.

were published in that the control of the Swering of each were inken by Mr. Moody and distributed to the students, to be circulated and published by these.

Prominent men from all parts are here, among them Rev. Dr. Woldenstein, member of the Swerish parliament; Rev. Blatop Baldwin, of the Episcopal Child. Blatop Foas, of the Methodist Episcopal Child. Blatop Baldwin, of the Episcopal Child. Particle of Yale college; Dr. Hoge, Richmond, Ya, and many others whose manes I haye not learned. Not less than three meetings reach day, oftener four. Prominent men from New York, Boston and other places are in attendance, among them two rathroad presidents and men of great wealth. A large and very finely kept holel, beilt by a Boston company of religious men, for accommodation of guests and visitors, of which there is a constant stream coming and going.

The place is a modern paradise in Geommoditions. As I write, from the same window I can see the bills of Vermon teach New Hampehire, and as half hour's dies will take me to either. Am in good health, swering questions since I left home, and you'd ablat hourself see you'd be compelled to think myself in the midst of a milientum. No man at this hotel is atraid to leave his pooket hook any where with nny amount of treasure.

I leave here next Thursday for Chicago, and from these for Portland on the lith, and hope to reach Portland the 20th and um gladdened by the prospect.

For quick raising, the Royal Baking Powder is superior to all other leavening agents It is absolutely pure and wholesome and of the highest leavening power It is always uniform in strength and quality and never falls to make light, sweet, most palatable and nutritive food. Bread, biscuits, muffins, case, etc., raised with Royal Baking Powder may be eaten hot without distressing results to the most delicate

digestive organs It will keep in any climate without deterioration Prof H. A. Mott, U. S. Government Chemist, after examining officially ha

principal baking powders of the country, reported "The Royal Baking Powder is absolutely pure, for I have so found it in many tes s male both for that company and the United States Government

"Because of the facilities that company have for obtaining perfectly pure cream of tartar, and for other reasons dependent upon the proper proportions of the same, and the method of its preparation, the Royal Baking Powder is undoubtedly the purest and most reliable baking powder offered to the public.
